Emergency

Alert! Alert! The Doppler research reploid has inspired a revolt in DopplerTown. The Maverick virus has broken through the Doppler anti-virus, and it appears Doppler has caused it. All previous postings here about the anti-virus are incorrect. The anti-virus is a placebo. REPEAT: the anti-virus is a placebo!

DopplerTown is over-run with Mavericks. Utopia has ended before it even started. Take cover quickly. Virus is spreading rapidly. Cain Laboratory is being infiltrated. Maverick Hunter Units on FULL ALERT. Mega Man X and Zero . . . mobilize! Grave danger!

5. You can **escape** a stage only after you have defeated that stage’s Maverick.
ARMOR CAPSULES

The trusty Dr. Light has once again hidden some secret capsules that will enhance Mega Man X’s abilities. When Mega Man X steps into one of these capsules, it will come to life and change the appearance of Mega Man X.

Here are descriptions of what some of the capsules do to Mega Man X:

HEA D - **Item Radar** — When a Maverick in a stage is defeated, and you re-enter the level, a map will appear at the beginning of the level to show you where hidden items are located.
BODY- **Protect Armor** — Automatically creates a defense shield on Mega Man X’s chassis that reduces damage by 50%.

LEG- **Air-Dash Boots** — The boots allow Mega Man X to perform the air dash in 3 different directions:

**Up:** Press **B** button to jump, then press ↕ on the control pad and hold the **A** button simultaneously to dash straight up.

**Left:** Press **B** button to jump, then press ← on the control pad and simultaneously hold the **A** button to dash to the left.

**Right:** Press **B** button to jump, then press → on the control pad and simultaneously hold the **A** button to dash to the right.
ARMOR CAPSULES cont.

ARM-Dou**ble Charge Shot**- Makes X-buster power much more powerful. Sends out a double charge blast. If timed correctly, you can overlap the double blasts to create one huge cross-over explosion.

ROBOT RIDE ARMOR

In addition to the Armor Capsules, Dr. Light has set out 4 different armors known as **Robot Ride Armor**. Mega Man X and Zero must find these 4 armors, each with different capabilities and functions. The armor looks like a giant robot that Mega Man X can activate by jumping into it. Once you find an armor, you may use the armor in any stage where you may find the Robot Ride **platforms**.

If you have found an armor, the platform will activate. A menu will appear just to the left of the platform, so use the control pad to select which armor you would like to use. While in the Robot Ride Armor, Mega Man X and Zero will not be damaged. The armor can be damaged, but can be healed by returning to
the platform. If the armor is destroyed, you cannot use it again until you enter a new stage.

Here is a list of some Robot Ride Armors:

**CHIMERA**  
Use the regular attack and dash functions inherent to Mega Man X.

**HAWK**  
Press B button to jump, then press and hold B again to hover in the air. Press Y button to shoot missiles.
Mega Man X

Reploid leader of the 17th Unit, Maverick Hunters. His creation is shrouded in mystery; nobody knows why he was built and then buried. Can X learn? X is famous among Maverick Hunters for defeating Sigma twice and leading to its untimate demise. X understands his role, and believes deeply in the need to protect reploids and humans alike. But he has an inner conflict about fighting and violence.

Zero

Zero is Mega Man X’s best friend and partner. His creation is a mystery as well, yet many rumors and much speculation have arisen. Recently destroyed to protect X, Zero has been revived to continue the aid he has offered X in the past.

Once part of the 17th Unit, Maverick Hunters, Zero now leads a Special #0 Class Unit. Always cool and calm, Zero takes quick action against the evil forces he hates so much.
Dr. Doppler

A scientist reploid created to support humans in creation of reploids. Equipped with a high-performance neuro-computer, Doppler was instrumental in determining the cause of the recent Maverick outbreak. Its' anti-virus was revolutionary and once again brought peace to the world.

Re-programmed to build a utopian world called DopplerTown where humans and reploids lived in harmony. It grew too quickly and became infected with the same virus it was believed to remedy. Doppler incited a new Maverick outbreak and created chaos in DopplerTown. It changed its computer body into one geared for battle and gathered all the reploids in its' first move in war against humans.

Vile

Once a top henchman for Sigma, Vile was destroyed at the hands of Mega Man X and Zero. When Doppler became virus-infected, its' first move was to revive Vile. When Vile became infected with the same computer virus, it went completely nuts. Doppler could not control Vile. Vile went on a rampage, and has become so stricken with hatred for Mega Man X and Zero, who knows what its' intentions are?
